### Announcement of Town Hall Meeting with Cermaq and Community Open house - Site Tours

The Havih in consultation with the community and officials with Cermaq have announced today that given the recent losses in the community and busy end of summer activities that a **Community Open House** and Lunch will be hosted on Saturday September 24 at the Multi Purpose Room in the School.

In the morning the community will be invited to participate in Farm Site Tours accompanied by Ahousaht members working for Cermaq. Come and see the operations for yourselves and ask the community members working there about Cermaq's operation in Ahousaht territory

The site tour will be followed by a BBQ at home and meeting to hear about Cermaq's operations and ask the company representatives any questions that you might have.

MHSS plans on holding a fall AGM where the Cermaq Protocol will be discussed and community input sought for future improvements and constructive strategies.

A detailed **Open House Itinerary** will be delivered to your home by mid September.

Please mark your calendars and for more information please contact the MHSS Operation Manager Keith Atleo at 250-731-6957
